924	6 mm x 33 m 6 mm x 55 m
926, 969	6 mm x 33 m
976	6 mm x 55 m

Operating Instructions

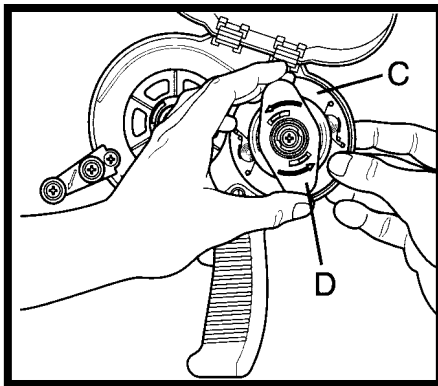

1. Depress latch "A" and lift to open cover.

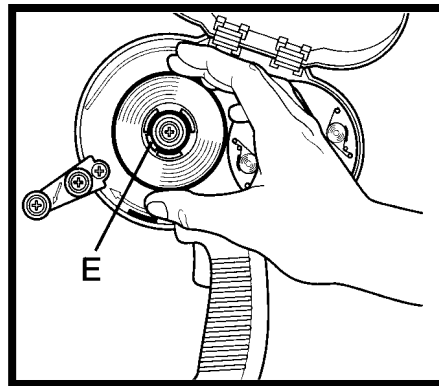

2. For 1/2 inch (12 mm) wide tape, leave tape roll spacer "B" in applicator. If using 3/4 inch (19 mm) wide tape, lift up and remove tape roll spacer from dispenser.

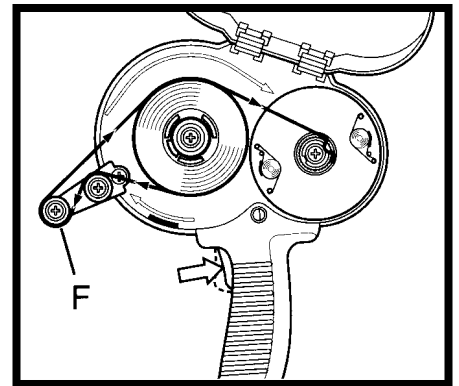

3. Hold rewind hub "C", rotate liner retainer "D" counterclockwise and lift up to remove.

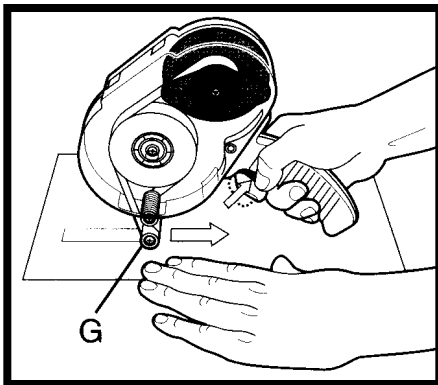

4. Place tape roll on three fingers of hub and press down until hook "E" locks tape roll in place.

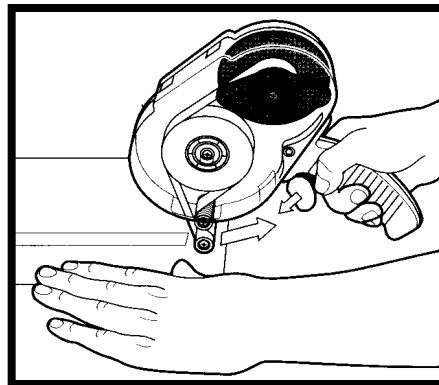

5. Depress trigger and thread tape leader as shown. Stop end of leader at point "F". Release trigger, replace rewind liner retainer and rotate clockwise to tighten liner. Close cover.

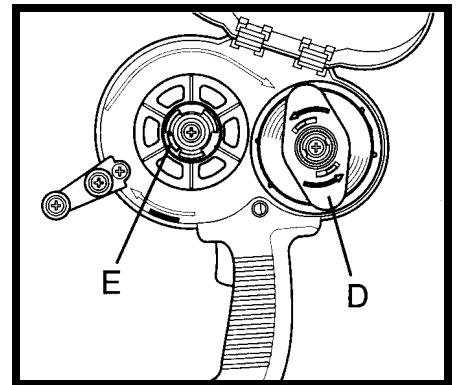

6. To start application: Place applying roller "G" on surface, depress trigger and pull applicator.

7. To end application: Keep applying roller on surface, stop, release trigger and pull applicator to break adhesive.

8. To remove rewound liner, rotate and remove liner retainer "D". Remove liner. To remove tape core, push hook "E" and remove tape core.

Lubrication/Cleaning

Lubrication – All shafts should be periodically lubricated with white petroleum jelly.

Cleaning – Dissassemble as required. Remove excess adhesive from applicator using 50/50 isopropyl alcohol and water solution.

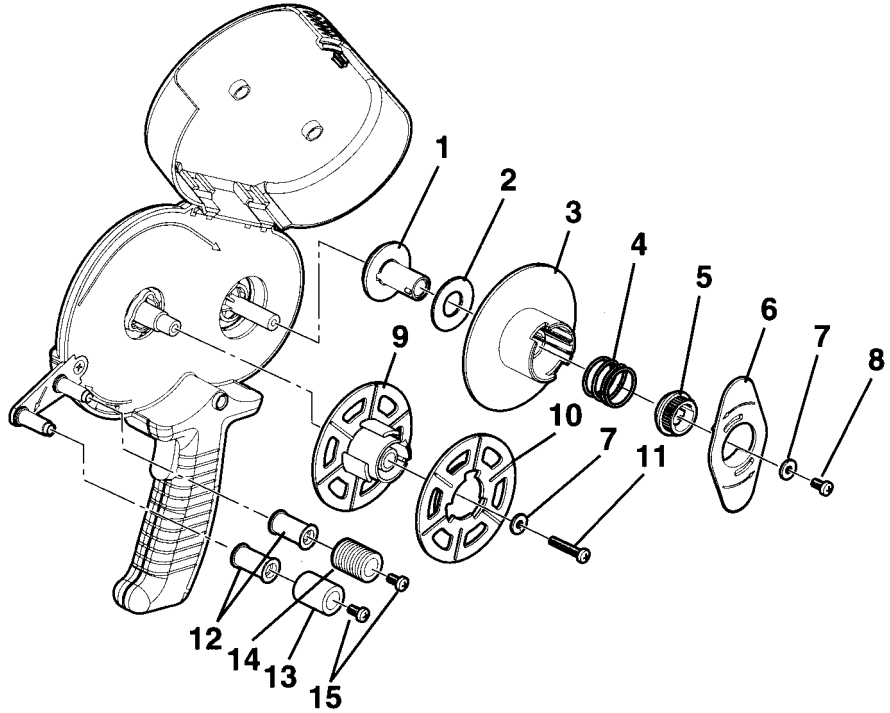

Note: Follow the solvent manufacturer's precautions and directions for use when using solvents.

Important Notice: User is responsible for determining whether this 3M product is fit for a particular purpose and suitable for user's method of application. Test application prior use.

Limitation of Liability: 3M shall not be liable for any direct, indirect, special, incidental, or consequential loss or damage. Some states or countries do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusions may not apply to you.
